**CHRISTIAN SCIENCE BILL  
PASSED BY NEBRASKA**  
LINCOLN, Neb., April 8.—A bill legalizing the practice of Christian Science was passed by the Nebraska House today. The bill subjects Christian Science practice to State quarantine laws. An amendment to make the practice subject to State public health laws failed. The bill now goes to Gov. McKelvie.

## WANTS AUTO TAXES DIVERTED TO ROADS

Stanfield Would Create Fund From Sales Levies on Products of Motor Industry.

Creation of a separate fund from Federal sales taxes on products of the motor vehicle industries for Federal highway construction and maintenance will be proposed to Congress by Senator Robert N. Stanfield, Republican, of Oregon, he announced today.

Stanfield favors raising Federal highway funds in this way in lieu of the present method of Congress making general appropriations for the purpose from the Treasury.

"Motor equipment is useless without proper highways to operate over," he says. "Why then should not the owners of motor equipment pay the larger part of the cost of building and maintaining our highways?"

"A broad but fair rule is that all who receive benefits from our Federal highways should help pay the cost. The rule is applied to water and rail transportation. Why not to highway transportation?"

As another means for the further development of Federal highways, Senator Stanfield would have 12 per cent of the funds available used for the construction and maintenance of roads wholly, or partly, within the Federal forest reserves, and the remainder, after deduction of not more than 5 per cent for administration, apportioned to the States in proportion to the number of motor vehicles licensed each year in each.

## D. C. SCHOOLS NEED 183 MORE ROOMS

Superintendent Ballou Outlines Conditions to City Club Civic Group.

Conditions in the public schools, because of lack of proper accommodations, are so bad that the public would have great difficulty in giving credence to the recital of them, according to Dr. Frank W. Ballou, superintendent of public schools, who last night addressed the education group of the City Club.

"We need 183 additional classrooms to bring our school system up to date," he said. "We should then be able to dispense with our 78 portable buildings, our basement classes, and our rented structures. Today we are occupying buildings that a special commission in 1909 recommended

abandoned at once. It is a deplorable situation, almost unbelievable." The group adopted a resolution urging the District Commissioners to ask Congress immediately for an appropriation of \$10,000 for a site in the southeast for a branch of the Public Library. The action was taken following an address by Dr. George F. Bowerman, librarian of the Public Library, who told of the pressing needs for library expansion.

Dr. Bowerman said there was great need for six additional major branch libraries and for 25 or 30 branches in public schools in the suburbs. He said that some boys in Anacostia and Georgetown who are unable to afford car fare to ride to the library walk seven miles regularly to the institution to get books.

"Young America First," a film dealing with the varied activities of the District playgrounds, was exhibited by E. L. Stock, chairman of the group, who presided.

**Ohioans to Fete Daugherty.** Attorney General Harry M. Daugherty will be the guest of honor at the entertainment to be held Monday at Rauscher's under the auspices of the Ohio State Society. Justice William R. Day, of the Supreme Court of the United States, will preside. Tod B. Galloway, of Columbus, who entertained the soldiers in France as a song leader, will speak on "Music in the Trenches." Mrs. Alma Clayburgh, of New York, will sing.

**Mexico Names Russ Envoy.** MEXICO CITY, April 8.—Mexico has appointed a minister to Soviet Russia. It is reported by El Universal today. The appointee, the newspaper says, is Salvador Escudero.

## THIN PEOPLE NEED BITRO- PHOSPHATE

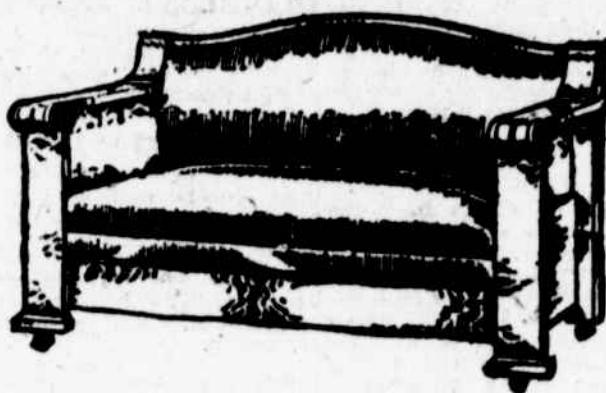

All that most weak, nervous, thin, mentally-depressed people need is ten grains of pure organic phosphate with each meal for a few weeks.

That is what nerve specialists in London, Paris and New York are prescribing with wonderful results. It is natural food for nerve and brain cells and is known to such reliable pharmacists as Peoples Drug Stores as Bitro-Phosphate. Because of its power to help create healthy flesh and strengthen weak nerves, much of it is being sold to people who are lacking in vitality.

**CAUTION:** Although Bitro-Phosphate is an excellent aid in relieving weak, nervous conditions, its use is not advised unless increased weight is desired.
